

Yurt Sleeping Capacity

	5m Yurt	6.3m Yurt	8m Yurt
Sleeping comfortable	2-6	6-10	10-16
Sleeping (Max.)	8	13	22
Recommendations			
Our example plans	The plans we provide are for example only and your own layout will depend on how many people are couples/singles and how well they know each other and how “cosy” they wish to be		
With furniture And or log burners	If you wish to add furniture like tables bedside tables, wardrobes, dressers or log burners then space is reduced to the minimum number specified to allow for maximum comfort		
With small blow-up beds Or “friendly” sharing	If you are a “friendly” group who do not mind sharing and squashing up with less than a standard single bed space then you may squash in one or two extras in the larger yurts but not the smaller ones		
Example	<p style="text-align: center;">Capacities we use for very comfortable sleeping at Woodside Glamping</p> <p>5m : 1 x real double bed (ours is actually a 7ft round bed) 1 x double futon Total sleeping 4 or 6 with blow ups and removal of Some, but not all, the furniture</p> <p>6.3m : 1 x real double bed 2 x double sofa beds 2 x single futons Total 8 or 10 with the addition of two blow-ups</p>
